

### REMARKS

Claims 2 and 3 have been amended to depend upon allowable claim 9. Claims 1, 4-8 and 13-20 are canceled. Such cancellation of claims is only for the purpose of expediting the prosecution of this application and not to be construed as an abandonment of any of the novel concepts disclosed therein without prejudice to introducing the subject matter in a continuing application.

Since all the active claims define allowable subject matter, this application is in a condition for allowance, and notice thereof is respectfully requested. Should the application not be in a condition for allowance, the Examiner is respectfully requested to telephone the undersigned attorney at (617) 521-7014 to discuss what additional steps are believed necessary to place the application in a condition for allowance.

The courtesy of the Examiner in setting forth reasons for the allowance of claims is noted with appreciation. There may be other reasons in support of the patentability of the allowed claims.

Respectfully submitted,

FISH & RICHARDSON P.C.
